

# Wireless Usage Module

The Wireless Transit Usage Module assists the wireless company in producing accurate usage statements and reporting needed to validate billing system statements for carriers with whom the wireless company have Interconnection Agreements with. It is also an excellent tool for determining the companies to whom the carrier has enough call traffic for consideration of Interconnection Agreements. The NAMS® Wireless Usage Module provides the checks and balances required by the new SARBANES-OXLEY regulations as well as an excellent method by which to validate existing systems.

## Features

- Produces accurate reports for traffic that transits the switch from direct trunk groups
- Accurately tracks all usage that transits the switch to or from direct trunk groups
- Supports multiple trunk groups within one statement
- Produces usage based billing statements for each telco with direct access
- Statements can be branded with any company logo
- Supports many trunk groups / exchanges
- Assign rate by trunk group and assign multiple trunk groups to one statement

## SAMPLE STATEMENT

<div style="border: 1px solid black; padding: 5px; width: fit-content; margin: 0 auto;"> <p><b>Your Company LOGO</b></p> </div>	Title: SAMPLE STATEMENT		 Page 2 of 2				
	Billing Period: 04/28/2005 - 04/28/2005						
	Billing Date: 05/04/2005
